

2-day In-person Seminar:

Compliance Boot Camp

-  San Diego, CA
-  September 14th & 15th, 2017
-  9:00 AM to 6:00 PM

Susanne Manz

Quality and Compliance Expert

Susanne Manz, MBA, MBB, RAC, CQA is an accomplished leader in the medical device industry with emphasis on quality, compliance, and Six Sigma. She has an extensive background in quality and compliance for medical devices from new product development, to operations, to post-market activities. While at industry leaders like GE, J&J, and Medtronic, Susanne worked in various worldwide roles including Executive Business Consultant, Worldwide Director of Quality Engineering, Worldwide Director of Design Quality, and Director of Corporate Compliance. She has traveled extensively throughout the world conducting audits and helping companies to understand and improve their Quality Management Systems. Susanne is a Presidential Scholar and has a BS in Biomedical Engineering and an MBA from the University of NM.

Overview :

This 2-day seminar will cover the essentials of compliance for medical device companies. An efficient and effective quality system can be a competitive advantage for companies by leading to improved quality and compliance as well as optimizing the cost of quality. This "Compliance Boot Camp" will get you started in setting up just such a Quality System. We'll discuss the "case for quality" and how you can use compliance, not as an end itself, but as a means to improved quality and reduced cost of non-compliance.

Agenda:

Day One

Lecture 1: overview

Lecture 2: introductions

Lecture 3: Regulatory expectations

Lecture 4: Quality Systems requirements for medical devices

Lecture 5: Quality System structure and writing SOPs

Lecture 6: Roles and Responsibilities

Lecture 7: Management Responsibility and a Culture of Quality

Lecture 8: Cost of Quality

Lecture 9: Key Capabilities for Success

Lecture10: Metrics and performance monitoring

Lecture11: Maturity Modeling

Why you should attend:

This seminar will help you understand regulatory requirements and how to translate them into a quality system that is both effective and efficient. You'll learn how to plan, structure, and implement a quality system specific for your business needs. We'll explore the capabilities that every medical device company needs to ensure quality products and a compliant quality system. We'll discuss how to create a quality strategy and plans. Will discuss methods to identify, prioritize, and analyze risks. Then will move on to continuous improvement, six sigma, and Corrective and Preventive Action to address issues within your Quality System.

Day Two

Lecture 1: An effective auditing program is a key to self-awareness

Lecture 2: CAPA and root cause analysis - essentials for improvement

Lecture 3: Six Sigma for Quality and Compliance

Lecture 4: Management Review

Lecture 5: Inspection preparedness and management

Lecture 6: Red Flags and Warning Signs

Lecture 7: Best Practices

Lecture 8: Risk Management for Compliance

Lecture 9: Creating a strategy and quality plan
